

Twin Tub Washing Machine with 8kg Capacity

This compact twin tub washing machine is designed for efficient household use. It features separate tubs for washing and spin-drying, allowing for simultaneous operation and reduced washing time.

Overview

Efficiency in Laundry

The XPB80-98S-A twin tub washing machine is a robust and efficient solution designed for versatile laundry needs. Featuring dual-tub operation, it allows for simultaneous washing and spin-drying to significantly reduce total cycle time. With a generous 8kg capacity, it is well-suited for household demands while maintaining a compact footprint for space-saving placement.
