

Twin Tub Washing Machine with Air Turbo Drying

This twin tub washing machine has separate washing and spin-drying compartments. It is equipped with multiple wash programs, a timer, and an air turbo drying system.

Product Overview

High-Efficiency Twin Tub Laundry Solution

This twin tub washing machine is designed for efficient and reliable laundry processing. Featuring distinct washing and spin-drying compartments, it offers flexible cycle management through integrated timers and selectors. The inclusion of an air turbo drying system ensures faster moisture removal, while the robust build quality supports long-term durability for demanding use.
