

Two-Bike Hitch Mount Carrier Rack

This hitch mount rack is designed for transporting two bicycles securely and conveniently. Constructed from durable steel with a black finish, it attaches to a standard hitch receiver, offering a stable platform for bikes of various sizes.

Product Overview

Rugged Bike Transportation Solution

This heavy-duty hitch mount rack is engineered for the secure and convenient transport of up to two bicycles. Featuring a solid construction and a stable platform design, it ensures your bikes remain protected and steady during transit. The rack is versatile, accommodating various bike sizes and offering a user-friendly folding design for compact storage when not in use.
