Product Overview

Robust Hitch-Mounted Transport Solution

This two-bike hitch mount carrier offers a secure and convenient way to transport bicycles using your vehicle's existing receiver hitch. Featuring a durable high-strength steel construction with a protective powder-coated finish, it is engineered for long-term reliability. The smart design allows for tailgate access even when the rack is loaded, and the non-marring thermoplastic holders ensure your bike frames remain protected during travel.

Technical Specifications

Dimensions	23.5"L x 14.5"W x 36.5"H
