Product Overview

High-Efficiency Two-Burner Cooktop

This built-in gas cooktop is designed for modern kitchens, combining high thermal efficiency with versatile fuel compatibility. Featuring a durable aluminum alloy base and a sleek surface, it offers reliable performance for daily cooking needs. The system includes advanced pulse ignition and safety features to ensure a seamless and secure culinary experience.

Technical Specifications

Model Number	JZY/T-Q2106(B)
Compatible Gas Types	NG, LPG
Ignition Method	Pulse ignition
Base Material	Aluminium alloy
Dimensions	750 x 430 x 150 mm

Performance Metrics

Rated Heat Input

5.2 kW Natural Gas (NG)	4.8 kW Liquefied Petroleum Gas (LPG)
-----------------------------------	--

Thermal Efficiency

Gas Type	Efficiency
Natural Gas (NG)	> 63%
Liquefied Petroleum Gas (LPG)	> 59%

Energy Efficiency Level

Level 1 • Level 2
