Product Overview

Smart Cooking Performance

This two-burner natural gas cooktop combines modern aesthetics with advanced AI-driven cooking assistance. Featuring a durable tempered glass panel and high-efficiency burners, it is designed for both reliability and style in professional or high-end residential kitchen environments. Advanced safety protocols, including thermocouple flameout and gas leakage protection, ensure secure operation during every use.

Technical Specifications

Model Number	JZT-Q1701(B)-AI
Gas Type	Natural Gas 12T
Rated Heat Input	5 kW
Heat Efficiency	65 %
Ignition System	Pulse Ignition

Design & Build

Panel Material	Tempered Glass
Product Dimensions	800 x 450 x 175 mm
Cutout Size	665 x 365 x R25 mm

Safety Features

Safety Protections	Thermocouple Flameout Protection, Gas Leakage Protection
