

Two-Cup Electric Drip Coffee Maker with Mugs

This compact coffee maker is designed for personal use, brewing two cups of coffee. It features a top-loading water reservoir, a brew basket for ground coffee, and a warming plate.

Product Overview

Compact Dual-Cup Brewing Solution

This two-cup electric drip coffee maker is an ideal solution for small workspaces, hotels, or personal use. The system comes complete with two ceramic mugs and features an integrated warming plate to maintain optimal temperature after brewing. Designed for simplicity, the top-loading water reservoir and efficient brew basket allow for quick, effortless preparation of fresh coffee.
