

# Two-Door Refrigerator with Rapid Cooling

This two-door refrigerator features a sleek appearance and first-class energy efficiency. It boasts high-density foaming insulation, intelligent interior lighting, and a fully optimized refrigeration system.

## Product Overview

### Professional Two-Door Refrigerator

This two-door refrigerator combines high-performance cooling with a sleek, modern aesthetic suitable for professional settings. Featuring high-density foam insulation and an optimized refrigeration system, it ensures maximum thermal efficiency. The unit is designed for durability and ease of maintenance with detachable door seals and robust integrated bending construction.

## Performance & Efficiency

### Energy Efficiency

First-Class Efficiency

### Cooling System

Rapid Cooling, Optimized System

## Technical Specifications

### Model Number

BCD-1220

### Panel Identification Code

JMS

## Design & Build

### Construction Details

- High-density foaming insulation
- Integrated bending technology
- Detachable door seals
- Transparent interior components

### Door Finish

Sparkling Silver Steel

## User Experience

### Interior Lighting

Yes
