

Two-Door Top-Freezer Refrigerator

This two-door refrigerator includes a top freezer compartment and a bottom refrigerator. The appliance is designed with a compact form factor suitable for household use.

Overview

Compact Cooling Solution

This two-door top-freezer refrigerator is engineered for efficiency and space-saving integration in smaller kitchen environments or apartment living. Featuring a distinct blue front panel contrasted with professional silver side panels, it offers a modern aesthetic while maintaining a standard, functional layout. The integrated door handles provide a sleek profile, making it a practical and reliable choice for professional settings requiring compact refrigeration.
