

Two-Drawer Dishwasher and Disinfector

This appliance combines dishwashing and disinfection in a single unit. It features a two-drawer design and stainless steel construction, suitable for efficient cleaning and disinfecting of dishes in a home kitchen.

Product Overview

Professional-Grade Cleaning and Disinfection

This two-drawer dishwasher and disinfective apparatus is engineered to provide superior sanitation for your kitchenware. Featuring a durable stainless steel construction, it combines a modern aesthetic with robust performance suitable for demanding environments. The intuitive digital control panel allows for precise operation, ensuring that dishes are not only cleaned but thoroughly disinfected with every cycle.
