

Two-Gang 20A Double Pole Switch with Neon Indicator

This two-gang, double pole switch is designed with a simple, round appearance to suit various decor styles. The back housing uses fire-resistant, high-quality PC material to ensure safety.

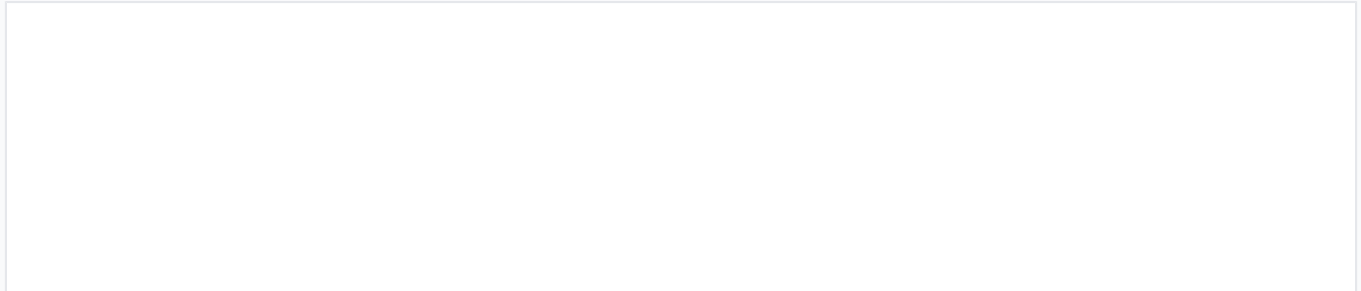

Product Overview

Professional Electrical Control

This two-gang 20A double-pole switch features a sleek, round design that integrates seamlessly into various architectural styles. Engineered with high-quality, fire-resistant PC materials, it ensures both safety and long-term durability in demanding environments. Integrated neon indicators provide clear visual status updates, making it a reliable choice for residential, commercial, and industrial power management.

Technical Specifications

Double pole mechanism provides enhanced safety by disconnecting both phase and neutral wires.
