

Two-Nozzle Fuel Dispenser

This two-nozzle fuel dispenser is designed for commercial and industrial applications. It is equipped with accurate metering systems for precise fuel dispensing.

Overview

Commercial Fuel Dispensing Solution

The JDK50E222 is a professional-grade two-nozzle fuel dispenser engineered for rigorous commercial and industrial applications. It features a robust, durable construction paired with high-precision metering systems to ensure accurate fuel management and dispensing. Designed for safety and efficiency, the unit provides real-time digital feedback on volume and price, making it an ideal choice for gasoline and diesel refueling operations.

Performance Specifications

Number of Nozzles	2
Fuel Types Supported	2

Key Features

Integrated Monitoring

- Real-time volume display
- Price calculation tracking
- Digital interface

Safety Standards

Leak Prevention, Spill Containment, Environmental Protection

Applications

Compatible Fuels

Gasoline • Diesel
