

Two-Seat Electric Golf Cart

This street-legal electric golf cart comfortably seats two adults, making it ideal for short trips. It is equipped with features expected from a zero-emission electric vehicle, offering a financially and environmentally smart transportation solution.

Overview

Efficient Neighborhood Transportation

This two-seat electric golf cart is engineered for quiet, emission-free travel, making it an ideal solution for neighborhood commuting and leisure activities. It features a robust 48V AC motor paired with an intelligent controller system for smooth and variable speed control. Built with a durable steel chassis and a reliable suspension system, it offers a comfortable ride with a maximum range of 70 kilometers per charge.

Performance

Key Performance Metrics
