

Two-Section Freestanding Refrigerator

This is a freestanding refrigerator with a two-part design. It features a louvered bottom section and a top section with a metallic grille.

Product Overview

Professional Two-Section Design

This two-section freestanding refrigerator offers a versatile storage solution designed for industrial or professional environments. Featuring a clean, white finish with sophisticated metallic accents, it combines durability with a modern aesthetic. The unit is optimized for air circulation through a top metallic grille and bottom louvered design, ensuring consistent cooling performance for your inventory.
