

Two-Slice Stainless Steel Toaster

This two-slice toaster is designed with a brushed stainless steel finish. It features variable browning control, a high-lift lever, and a removable crumb tray.

Overview

Modern Stainless Steel Toaster

This sleek and modern two-slice toaster features a durable brushed stainless steel finish, making it a stylish addition to any kitchen or commercial pantry. Designed with efficiency in mind, it includes variable browning controls for customized toasting and a high-lift lever for safe, easy retrieval of smaller bread slices. Its compact footprint ensures it fits perfectly on crowded countertops while offering convenient maintenance with a removable crumb tray.
