

Two-Slice Stainless Steel Toaster with Glass Window

This two-slice toaster features a brushed stainless steel finish and a glass viewing window. It has multiple toasting functions and adjustable browning levels.

Product Overview

Professional Glass-View Toaster

Enhance your breakfast service with this premium two-slice stainless steel toaster, designed for both aesthetic appeal and consistent performance. The innovative double-layer glass viewing windows allow for precise monitoring of the browning process to prevent burning. Featuring versatile settings including defrost, reheat, and bagel functions, this unit provides reliable results for professional or commercial environments.
