

Two-Tone Five-Spoke Alloy Wheel

This five-spoke alloy wheel features a two-tone finish. The spokes are matte silver, while the rim and inner barrel are glossy black.

Product Overview

Premium Five-Spoke Alloy Wheel

This two-tone five-spoke alloy wheel combines durability with a sophisticated aesthetic, featuring matte silver spokes contrasted against a glossy black rim and inner barrel. Designed with complex surfaces and precise edges, this wheel offers both structural integrity and a high-end visual appeal suitable for modern automotive applications. The center cap features a refined circular design, completing the polished look of this high-quality component.
