

Type A Yellow Chromated Wire Rope Clip

This is a type A wire rope clip with a yellow chromated finish. The yellow chromate coating enhances corrosion resistance, making it suitable for use in various environmental conditions.

Product Overview

Professional Grade Wire Rope Clips

These Type A wire rope clips are engineered to provide a secure and reliable connection for wire rope loops. Featuring a specialized yellow chromated finish, these clips offer enhanced corrosion resistance suitable for challenging environmental conditions. Their robust construction, consisting of a U-bolt, saddle, and two nuts, ensures high mechanical integrity for various industrial fastening applications.

Technical Specifications

Finish

Yellow Chromated

Assembly Components

- U-bolt
- Saddle
- Two nuts

Clip Type

Type A

Material Composition

Malleable Iron, Steel

Usage Information

Primary Application

Securing loose ends of wire rope or cable to form a loop.
