

UHF Wireless Dual Microphone System

UHF wireless microphone system featuring dual handheld microphones and a receiver base. The system operates on distinct frequencies for each microphone to minimize interference.

System Overview

Professional Wireless Audio Solution

This UHF wireless microphone system is designed for clear and reliable vocal reproduction in various professional environments. Featuring dual handheld microphones and a robust metal receiver, the unit provides stable connectivity across an operating range of 60 meters. The dual LCD interface allows for precise monitoring of frequency channels, making it an excellent choice for public speaking, live performances, and event hosting.

Technical Specifications

Frequency Range	600-900MHz
Frequency Response	40Hz-20KHz
Operating Range	60 m
Microphone Power Supply	1.5V x 2 Batteries

System Features

Included Components

- 2 x Handheld Microphones
- 1 x Dual-Channel Receiver

Key Features

UHF Connectivity, Dual Channel, LCD Display, Metal Receiver, Individual Volume Control
