

# UHF Wireless Dual Microphone System

This is a UHF wireless microphone system. It features a single channel, dual microphones and a receiver unit.

## Overview

### Professional Wireless Audio Solution

This UHF wireless dual microphone system is designed for high-quality audio capture in presentations, public speaking, and performance environments. Operating within a 600-900MHz frequency range, it offers reliable signal stability and a generous operating distance of 60 meters. The system includes two handheld microphones, providing complete freedom of movement and clear vocal reproduction.
