Get the Hotselling Points

- ▶ Diversity UHF 480-960MHz
- ▶ Metal Housing
- ▶ 100 multi-frequencies
- ▶ USB 5v Input
- ▶ Auto Scanning
- ▶ Distance: 70m
- ▶ Infrared SYNC
- ▶ Aluminium Handheld
- ▶ LCD display
- ▶ XLR balanced Output
- ▶ Bluetooth
- ▶ Good Price

Comprehensive feature set including 100 multi-frequencies, 70m range, and USB 5V power input.

Professional UHF Wireless Solution

The UH-15Pro-H is a high-performance diversity wireless lavalier microphone system designed for professional audio applications. It features a robust metal receiver housing with an elegant silver panel, offering 100 selectable channels to ensure interference-free operation. With advanced features like auto-scanning, infrared synchronization, and Bluetooth connectivity, this system provides a reliable 70-meter transmission range for presentations, broadcasting, and live performances.

Key Performance Metrics

Performance Highlights

100 CH

Selectable Channels

70 m

Operating Range

5 V

USB Power Input

Technical Specifications

Antenna Technology

Antenna Diversity • Anti-Interference

Frequency Range

480~960MHz (Region dependent)

Synchronization Mode

Infrared (IR)

Connectivity & Power

Power Supply Versatility

- USB 5V Input
- Power Bank Compatible
- 5V 1000mA Power Adapter

Audio Outputs

XLR Balanced, 1/4" Unbalanced Mixed, Bluetooth 4.0

Features & Functionality

Smart Features

- Auto-scanning for best working frequency
- Infrared Synchronizing for easy pairing
- Bluetooth 4.0 for smartphone app integration
- LCD display for RF/AF signal monitoring

Physical Design

Construction

Metal receiver housing with Silver panel frame

Form Factor

Yes
