

# UK Standard Power Strip Tower with USB

This power strip tower features UK standard outlets and USB charging ports. It offers surge protection and a space-saving design for convenient power access.

## ADDITIONAL IMAGES

## Product Overview

### High-Capacity Vertical Power Solution

This vertical power strip tower provides a space-saving solution for modern professional environments, featuring 8 AC outlets and 3 USB ports. Designed for versatility, the unit supports high-load equipment with a 3250W capacity and ensures device safety through integrated surge protection. Its smart layout prevents outlet blocking, making it ideal for workstations, office desks, and home setups requiring multiple connections.
