

UL Standard Power Cord

This power cord is suitable for various industrial electrical appliances. It is built to UL/CUL standards.

Product Overview

Industrial Power Connectivity

This UL-standard power cord is engineered for robust performance in industrial and commercial environments. Compatible with the NEMA 6-50P standard, it offers flexible current ratings ranging from 20A to 50A. Its durable construction ensures reliable power delivery for heavy-duty machinery and electromechanical applications.

Technical Specifications

Model Number	XR-306A
Plug Type	NEMA 6-50P
Compliance Standards	UL817, CSA C22.2
