Product Overview

Efficiency and Comfort

This compact ultrasonic humidifier is engineered to improve indoor air quality for professional and personal environments. With a 1.8L capacity and adjustable mist control, it provides consistent relief from dry air while maintaining a whisper-quiet 35dB operation. The integrated aroma diffuser and automatic safety features make it a versatile, low-maintenance solution for offices, bedrooms, and small to medium-sized spaces.

Technical Specifications

Product Model: SK6181

Product Size: 214*130*270mm

Rated Power: 20W

Rated Voltage: 100-240V/50/60Hz

Max. Mist Output: 200ml/H

Water Tank: 1.8L

Function: Ultrasonic humidification, 35dB quiet work environment with aroma diffuser. Automatic protection for waterless.
