

Ultrasonic Cool Mist Humidifier

This humidifier efficiently improves air quality in small to medium-sized rooms. It uses ultrasonic technology to create a fine mist, providing consistent humidity.

Product Overview

Compact Air Quality Solution

The SY-J03 Ultrasonic Cool Mist Humidifier is a compact and efficient device designed to improve air quality in small to medium-sized indoor environments. Utilizing advanced ultrasonic technology, it generates a fine, consistent mist to maintain optimal humidity levels without operational noise. Its thoughtful design features a user-friendly, translucent water tank and stable mounting, making it an ideal choice for both home and office settings.

Technical Specifications

Technology	Ultrasonic Cool Mist
Noise Profile	Low/Quiet operation

Design & Build

Maintenance

- Removable lid for easy filling
- Visible water level monitoring

Key Design Elements	Translucent tank, Spherical shape, Compact footprint, Stabilized feet
