

Ultrasonic Distance Measuring Tape

This ultrasonic tape measure accurately gauges distances from 0.45 to 18 meters. The device features a digital display, memory storage, and mathematical functions.

Overview

Precision Electronic Measurement

This Ultrasonic Distance Measuring Tape is a versatile electronic instrument designed for rapid and accurate distance calculation. It offers a measurement range of 0.45 to 18 meters, making it ideal for various professional spatial assessments. The device includes convenient digital features such as store and recall functions, as well as integrated mathematical operations to streamline your workflow.

Technical Specifications

Measurement Range

0.45 m

Minimum Range

18 m

Maximum Range

Model Number

CR-UM18

Features

Key Features

- Digital display
- Store and recall functions
- Mathematical operations (+, X, =)
- Ultrasonic distance sensing

Device Category

Electronic • Measurement Tool
