

Ultrasonic Mist Maker AC Adapter Power Supply

AC adapter designed for ultrasonic mist makers and foggers. It converts AC power to DC, providing the necessary power to operate the mist maker.

Product Overview

Reliable Power Solution for Ultrasonic Mist Systems

This AC adapter power supply is engineered specifically for use with ultrasonic mist makers and foggers. Designed with a compact, ventilated enclosure, it efficiently converts AC power to the DC voltage required for stable mist generation. It provides a dependable power source to ensure consistent performance for your misting equipment.

Technical Specifications

Design Features

- Compact form factor
- Ventilation slots for thermal management
- Durable black enclosure

Device Type	AC Adapter Power Supply
Compatibility	Ultrasonic Mist Makers, Foggers
Power Conversion	AC to DC
