Product Overview

Undercarriage Protection System

This water tank protection board is specifically engineered for Ford Focus models manufactured between 2005 and 2007. Designed to safeguard underbody components, it provides a vital shield against road debris, water splashes, and environmental elements. The component features molded structural ribs to maintain aerodynamic efficiency and ensure a precise fit during installation.

Compatibility

Compatible Model Years	2005-2007
------------------------	-----------

Technical Specifications

Part Identification	BSAW-SP-WB, 1011-0020
Material	Durable Black Plastic
Key Features	Aerodynamic Design, Molded Structural Ribs, Underbody Protection, Cooling System Accessory
