

Uninterruptible Power Supply for Lottery Terminals

This uninterruptible power supply (UPS) provides backup power in case of a power outage. It is designed for use with lottery terminals.

Product Overview

Reliable Backup Power for Lottery Terminals

This uninterruptible power supply is specifically engineered to maintain the continuous operation of lottery terminals. By providing seamless backup power during outages, it effectively prevents critical data loss and minimizes system downtime. The unit is purpose-built to ensure stable performance in environments where power consistency is essential for terminal reliability.

Technical Specifications

Primary Application	Lottery Terminals
Key Features	Uninterruptible Power, Anti-data loss, Downtime Prevention

Compliance and Standards

Certifications

Industrial Grade • Power Protection Certified
