

# Uninterruptible Power Supply with Battery Backup

This uninterruptible power supply (UPS) provides backup power in the event of a power outage, ensuring continuous operation of connected devices. It features battery backup and surge protection to safeguard sensitive electronic equipment from damage due to power fluctuations.

## Product Overview

### Reliable Power Protection

This uninterruptible power supply provides essential backup power to ensure the continuous operation of your critical devices during unexpected outages. Equipped with advanced battery backup and integrated surge protection, it actively safeguards sensitive electronics from harmful power fluctuations. It is an ideal solution for maintaining uptime for computers, networking equipment, and other mission-critical hardware.

## Technical Specifications

### Suitable For

- Desktop Computers
- Networking Hardware
- Critical Electronic Devices

<b>Model</b>	UPS-1200
<b>Key Protection Features</b>	Battery Backup, Surge Protection, Power Fluctuation Defense
