

Universal AA AAA Battery Charger

This universal battery charger is designed for charging AA and AAA Ni-MH and Ni-Cd rechargeable batteries. It features multiple independent charging channels and built-in safety features, with power via USB or AC adapter.

Product Overview

Versatile Charging Solution

This universal battery charger is designed to efficiently power both AA and AAA Ni-MH and Ni-Cd rechargeable batteries. Featuring independent charging channels, it allows for the simultaneous charging of different battery sizes and capacities. With built-in safety mechanisms including overcharge and short-circuit protection, it ensures a reliable and secure charging process for your electronic devices.

Technical Specifications

Compatible Battery Types	AA, AAA, Ni-MH, Ni-Cd
Charging Channels	4 channels
