Universal AA/AAA Battery Charger

This universal charger is designed for charging AA and AAA Ni-MH and Ni-Cd batteries. It features individual channels, LED indicators, and built-in safety features.

Overview

Versatile Charging Solution

This universal battery charger is designed for efficient, simultaneous charging of AA and AAA Ni-MH and Ni-Cd rechargeable batteries. Featuring individual charging channels, it allows for flexible battery management with different sizes and capacities. Built-in safety features, including overcharge and short-circuit protection, ensure reliable operation, while LED indicators provide clear status updates for each slot.

Technical Specifications

Charging Performance

500 mA	250 mA
AA Charging Current	AAA Charging Current

Input Voltage	100-240V AC, 50/60Hz
Output Voltage	1.4 V DC

Compatibility & Safety

Safety Protections

- Overcharge protection
- Short-circuit protection

Status Indicators

LED indicators per channel

Supported Battery Types	AA, AAA, Ni-MH, Ni-Cd
