

# Universal Battery Charger with Indicator Light

This is a battery charger for electronic devices. It features a compact design with a charging bay suitable for various battery sizes.

## Overview

### Universal Charging Solution

This universal battery charger is designed for versatility and convenience, featuring a compact form factor that fits easily into any workspace or travel bag. It includes a flexible charging bay capable of accommodating various battery sizes, ensuring compatibility with multiple electronic devices. An integrated indicator light provides real-time feedback on charging status, allowing users to monitor their power levels at a glance.
