

Universal Grain and Bean Powder Milling Machine

This universal machine is designed for milling grains and beans into fine powder. Its stainless steel construction ensures durability and hygiene.

Overview

Universal Milling Solution

This high-performance universal milling machine is designed to process a wide variety of dry ingredients into fine powder. It is ideal for grains, beans, seasonings, and select medicinal herbs, making it a versatile tool for food processing and herbal preparation. With adjustable feeding speed and output fineness, it offers precise control to meet specific production requirements.

Technical Specifications

Model	MBF-160
Power Output	2200 W
Motor Speed	1420 r/min
Voltage Compatibility	220V, 380V

Performance

Operational Metrics

40 kg/h

Max Capacity

300 m

Max Fineness

Adjustable Parameters

- Feeding speed
- Output fineness

Physical Dimensions

Machine Dimensions	520 x 290 x 420 mm
Weight	40 kg

Processing Capabilities

Compatible Materials

Category	Examples
Grains	Wheat, rice, corn, oats, millet, soybean, peanut, lotus seed
Seasonings	Pepper, clove, anise, citrus, sugar, salt
Medicinal Herbs	Barley, chinese yam, poria cocos, ganoderma
