

Universal Laptop Power Adapter

This universal laptop power adapter is suitable for in-car use with a cigarette lighter adapter. It features multiple interchangeable tips and a ventilated design for heat dissipation, with a DC output of 15V-24V and 90W max.

Overview

Versatile Power Solution

This universal laptop power adapter is designed for maximum compatibility and convenience in mobile environments. Featuring a compact, ventilated design for efficient heat dissipation, it supports a wide range of DC output voltages to accommodate various laptop models. The inclusion of multiple interchangeable tips and a cigarette lighter adapter makes it an ideal power source for in-car use.

Technical Specifications

Maximum Power Output

90 W

Rated Power

Output Voltage Range

- 15V
- 16V
- 18V
- 19V
- 20V
- 22V
- 24V

Input Voltage

12V DC

Features

Model Identifier

GA-9098

Compatibility & Design

Interchangeable Tips, In-Car Use, Ventilated Design, Universal Compatibility
