

Universal SMT Pick and Place Nozzle

This universal pick and place nozzle is designed for SMT machines. It ensures optimal vacuum sealing and secure grip, which minimizes component slippage and maximizes production efficiency.

Product Overview

Universal SMT Pick and Place Nozzles

These precision-engineered pick-up nozzles are designed for universal GSM FLEX JET systems, ensuring durability and reliability in automated pick-and-place applications. They provide optimal vacuum sealing and a secure grip to minimize component slippage and maximize production efficiency. These nozzles are ideal for electronics manufacturing and precision handling processes, offering a wide range of configurations to accommodate various component sizes.

Compatibility

Supported Nozzle Types

Nozzle Code	Part Numbers
042F	47995019
042MF	47561110
058F	45466902, 47995048
083MF	45466907, 47995032
095C	47432046, 47995064
120F	45466933, 49960206, 48503503
125F	48503416, 47561102
160F	47995077, 45466933, 49960206
234F	45466931, 48503417
360F	45466917, 48503408, 47561105
08MPF	47561112, 47561106

Application

Suitable Applications

Electronics Manufacturing, SMT Assembly, Precision Handling
