Product Overview

Practical design ensures your device is accessible and stable throughout your journey.

Versatile Car Phone Mounting Solution

This universal suction cup car phone holder provides a stable, secure platform for your smartphone, ensuring hands-free convenience while driving. Equipped with a high-adsorption suction cup and an adjustable bracket, it safely accommodates a wide variety of mobile devices. Designed for ease of use, it allows for optimal viewing angles for GPS navigation and calls, while its durable ABS construction ensures long-lasting performance on the road.

Technical Specifications

Max Load Capacity

1 kg

Weight Capacity

Product Dimensions 8.5 x 7 x 8 cm

Material ABS

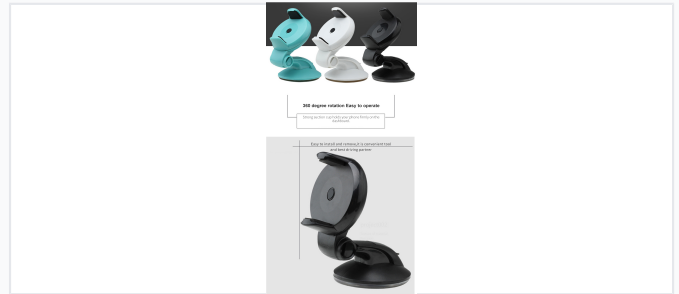

Unit Weight 96 g

Available Colors Black, White

Features

The soft silicon cushion protects your device from scratches during use.

Features 360-degree rotation for easy adjustment and optimal viewing angles.

Key Functionality

- Strong sticky suction cup
- Enhanced adsorption switch mechanism
- 360-degree rotation
- Silicon cushion protection
- Supports GPS usage while driving
