

Universal Travel Adapter with Multiple Ports

This universal adapter is designed for use in sockets around the world. It features multiple ports, including USB and USB-C, to meet various mobile phone charging needs.

Product Overview

Universal Travel Charging Solution

The UC-LQ1 is a versatile, compact travel adapter designed for seamless power connectivity across global regions. Featuring advanced PD3.0 and QC3.0 quick charging technology, it provides up to 18W of power output to efficiently charge your mobile devices. Built with high-quality copper and fire-proof PC plastic, this adapter combines reliable safety with a highly portable design suitable for frequent travelers.

Technical Specifications

Performance Metrics

18 W

Max Power Output

3 A

Maximum Current

Output per Single Port

- 5V=3.0A
- 9V=2.0A
- 12V=1.5A

Input Voltage/Rate

AC 100-240V, 50/60Hz

Dimensions

56.2 x 56 x 42 mm

Certifications & Materials

Safety Certifications

CE, RoHS, FC

Construction Materials

Copper, Fire-proof PC Plastic

Compatibility

Compatible Regions

- Taiwan
- Japan
- USA
- Canada
- Philippines
