Product Overview

Professional Woodworking Capability

This universal circular saw is engineered for high-precision woodworking, featuring a robust construction built for stability in demanding workshop environments. Equipped with a powerful motor and adjustable cutting components, it ensures accuracy across a wide range of material feeding tasks. The machine integrates essential safety features, including blade guards and secure switching, to provide a versatile solution for professional cutting applications.

Technical Specifications

Construction Features

- Robust frame for vibration-free operation
- Large stable work table
- Integrated guide rails
- Dust extraction port

Adjustability

Adjustable Fence, Miter Gauge, Variable Blade Height, Variable Blade Angle

Safety and Maintenance

Safety Systems

Blade Safety Guard • Secure Safety Switch • Integrated Dust Extraction
