

Unshielded Twisted Pair UTP Cable

This unshielded twisted pair (UTP) cable features four twisted pairs of copper wires. It is designed for data transmission in networking applications and consists of solid conductors, ensuring reliable connectivity.

Product Overview

High-Performance UTP Networking Cable

This unshielded twisted pair (UTP) cable is engineered for reliable data transmission in professional networking applications. Featuring four twisted pairs of solid copper conductors, it ensures consistent connectivity for structured cabling systems. The durable outer jacket provides essential insulation and protection, making it an ideal choice for data network infrastructure.

Technical Specifications

Shielding

Unshielded (UTP)

Conductor Type

Solid Copper

Construction

4 Twisted Pairs

Applications

Primary Applications

Data Networks, Structured Cabling, Networking
