

Upright Vacuum Cleaner for Home Use

This upright vacuum cleaner is designed for effective dirt and dust removal. It features a slender design with a cylindrical body, extension pole, transparent dust container, and rectangular base.

Product Overview

High-Efficiency Upright Vacuum

This versatile upright vacuum cleaner is designed to streamline home maintenance with its slender, ergonomic architecture. Featuring a specialized cylindrical body and an integrated extension pole, it offers reach and maneuverability for various floor surfaces. The transparent dust container allows for easy monitoring of debris collection, ensuring efficient cleaning performance in a compact, modern design.
