

Urban Commuter Motorcycle

This motorcycle is a compact and lightweight transportation solution, ideal for urban commuting and short-distance travel. It features a single-cylinder engine with a displacement suitable for efficient fuel consumption.

Overview

Compact Urban Mobility

The XF30B motorcycle is a compact and lightweight transportation solution, specifically engineered for efficient urban commuting and short-distance travel. Designed with a classic aesthetic and a convenient step-through frame, it offers riders easy mounting and dismounting in busy city environments. This motorcycle prioritizes reliability and ease of maintenance, making it a practical choice for daily transit needs.
