

Urban Commuter Motorcycle

This motorcycle is engineered for urban commuting and everyday transport. It features a single-cylinder engine, chrome exhaust, and standard motorcycle design.

Overview

Urban Commuter Motorcycle

This standard motorcycle is engineered for reliable urban commuting and general transportation needs. It features a robust single-cylinder engine design and is equipped with practical utility enhancements including a rear luggage rack and a protective windscreen. Built for daily use, it combines essential safety features like a front disc brake with a classic, functional aesthetic.
