

Urban Commuter Motorcycle

This motorcycle has a step-through frame and a single-cylinder engine. Designed for urban commuting, it offers fuel efficiency and maneuverability.

Product Overview

Urban Commuter Motorcycle

This urban commuter motorcycle is engineered for efficient city travel, featuring a practical step-through frame design that ensures ease of use. Equipped with a reliable single-cylinder engine, it balances fuel efficiency with the maneuverability required for navigating busy streets. The inclusion of a front fairing and a rear luggage rack adds both comfort and utility for daily transport needs.
