

Urban Commuter Motorcycle

This motorcycle is designed for urban commuting and light transportation. It features a step-through frame, a front basket, and a rear rack.

Overview

Urban Commuter Utility

The CT100-A is a compact motorcycle specifically engineered for efficient urban commuting and light-duty transportation. Featuring a convenient step-through frame design, it offers ease of access for daily riders navigating busy city environments. The inclusion of both a front basket and a rear rack enhances its utility for carrying essential cargo, making it a practical choice for short-distance logistics or personal travel.
