

Urban Commuter Motorcycle

This is a step-through motorcycle designed for urban commuting. It features a single-cylinder engine, chrome exhaust pipe and spoked wheels.

Overview

Designed for Urban Mobility

The Urban Commuter Motorcycle is a versatile step-through bike engineered specifically for navigating city streets with ease. Featuring a reliable single-cylinder engine and a distinct red and black aesthetic, it combines practical performance with a stylish design. Its ergonomic layout, including a comfortable black seat and protective front fairing, ensures a smooth and efficient ride for daily commuting needs.
