

Urban Commuter Motorcycle with Step-Through Frame

This motorcycle is designed for urban commuting and general transportation. It features a step-through frame, an air-cooled engine, and a comfortable riding position.

Overview

Urban Mobility Solution

The NS110-2C is a lightweight motorcycle specifically engineered for urban commuting and efficient daily transportation. Featuring a user-friendly step-through frame and a comfortable riding position, it is designed to reduce rider fatigue in stop-and-go traffic. Its compact dimensions and fuel-efficient air-cooled engine make it an ideal choice for navigating congested city streets with ease.
