

Urban Commuter Scooter

This gas scooter is designed for urban commuting and short trips. It features a step-through frame, front fairing with headlights, and a rear storage compartment.

Overview

Designed for Urban Mobility

The Urban Commuter Scooter is engineered specifically for city travel and short-distance trips. Featuring a convenient step-through frame and an integrated rear storage compartment, it balances practicality with style. With its distinct red and black color scheme and chrome accents, this scooter offers a reliable solution for daily commuting needs.
