Overview

Premium Urban Commuter Scooter

This max scooter features a brand-new aerodynamic design developed for both urban commuting and longer leisure rides. It combines a powerful 300CC water-cooled engine with advanced safety features like Bosch dual-channel ABS and high-performance braking components. With a generous 400km range and integrated HD camera, it offers a sophisticated blend of performance, technology, and practical storage for professional riders.

Performance & Engine

Engine Performance

300 CC	17.5 KW	25 N.m
Displacement	Maximum Power	Maximum Torque
