

USA Standard Chain with Hooks

This chain assembly features durable links and robust hooks and meets USA standards. It is ideal for lifting, towing, and securing heavy equipment in industrial and construction environments.

Product Overview

Professional Grade USA Standard Chains

These high-strength chain assemblies are engineered for demanding industrial and construction environments, providing reliable performance for lifting, towing, and load-securing applications. Constructed from hardened steel, the chains are available in Grade 43 and Grade 70 configurations to meet diverse operational requirements. Each assembly features robust, durable hooks designed to maintain integrity under heavy loads, ensuring safety and efficiency in your daily operations.

Technical Specifications

Available Grades

Grade 43 • Grade 70

Compliance Standards

ASTM80, NACM90, NACM96

Load Data

Load and Weight Specifications

Size	Grade	W.L. (lbs)	B.L. (lbs)
1/4x14'	Grade 43	2150	7750
5/16x14'	Grade 43	3200	11600
3/8x14'	Grade 43	4450	16200
1/4x14'	Grade 70	3150	12600
5/16x14'	Grade 70	4700	18800
3/8x14'	Grade 70	6600	26400
